

BIOMEDAQU Online Workshop

NATIONAL WORKSHOP
ULPGC

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No.766347.

Online workshop

As part of its outreach activity, BIOMEDAQU has designed a **free online workshop** on the latest understanding of **skeletal anomalies** in gilthead seabream (*Sparus aurata*), through the management of nutritional and zootechnical protocols.

This one-day remote workshop will be held **on-line on 11 January 2023**. The workshop will deliver the outcomes of the BIOMEDAQU project to a wider public, including industry stakeholders, as well as researchers and students.

January 11th 2023

Time CET	Session	Speaker
14:15	Welcome session	David Dominguez (ULPGC)
14:30	Evaluation and etiology of skeletal anomalies in Mediterranean fish	David Dominguez (ULPGC)
15:00	How dietary vitamin D ₃ and Vitamin K ₃ affect gilthead seabream (<i>Sparus aurata</i>) skeletal development	U. Sivagurunathan (ULPGC)
15:30	Fishery and aquaculture products in the EU: an analysis of consumers' preferences, producers' risk management and the economic impact of severe skeletal anomalies	Javier Cantillo Acosta (NTNU)

Time CET	Session	Speaker
16:00	Effects of dietary microminerals (zinc, selenium, manganese, copper) on growth and skeletal development of gilthead seabream (<i>Sparus aurata</i>)	Yiyen Tseng (ULPGC)
16:30	The influence of stocking density and available swimming space on the development of skeletal anomalies in the early stages of gilthead seabream (<i>Sparus aurata</i>)	Zachary Dellacqua (UTV/ULPGC)
17:00	Concluding remarks	David Dominguez (ULPGC)
